INTERNATIONAL PRELIMINARY EXAMINATION REPORT

international application No.
PCT/US02/20830

_					
_	Basis of the report				
1.	With regard to the elements of the international application:*				
	the international application as originally filed.				
	the description:				
	pages 1-25 as originally filed				
	pages NONE , filed with the demand pages NONE , filed with the letter of				
	5.4				
	the claims:				
	pages 26-30 , as originally filed pages NONE , as amended (together with any statement) under Article 19				
	pages NONE , filed with the demand				
	pages NONE , filed with the letter of				
	the drawings:				
	pages 1-20 , as originally filed				
	pages NONE , filed with the demand				
	pages NONE, filed with the letter of				
	the sequence listing part of the description;				
	pages NONE, as originally filed				
	pages NONE , filed with the demand				
2	pages NONE, filed with the letter of With regard to the language, all the elements marked above were available or furnished to this Authority in the				
	language in which the international application was filed, unless otherwise indicated under this item.				
	These elements were available or furnished to this Authority in the following language which is:				
	the language of a translation furnished for the purposes of international search (under Rule23.1(b)).				
	the language of publication of the international application (under Rule 48.3(b)).				
	the language of the translation furnished for the purposes of international preliminary examination(under Rules 55.2 and/or 55.3).				
3.	With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the				
	international preliminary examination was carried out on the basis of the sequence listing:				
	contained in the international application in printed form.				
	filed together with the international application in computer readable form.				
	furnished subsequently to this Authority in written form.				
	furnished subsequently to this Authority in computer readable form.				
	The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the				
	international application as filed has been furnished.				
	The statement that the information recorded in computer readable form is identical to the written sequence listing				
	has been furnished.				
4.	The amendments have resulted in the cancellation of:				
	the description, pages NONE				
	the claims, Nos. NONE				
	the drawings, sheets/fig NONE				
5.	This report has been established as if (some of) the amendments had not been made, since they have been considered to go				
٥.	beyond the disclosure as filed, as indicated in the Supplemental Box (Rule 70.2(c)).**				
* 1	* Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in				
this	his report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17).				

INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/US02/20830

v.	Reasoned statement under Rule 66.2(a)(ii) with regard to novelty, citations and explanations supporting such statement	inventive step or industrial applicability;

1. STATEMENT

THE DISTRICT			
Novelty (N)	Claims	1-27	YES
	Claims	NONE	NO
Inventive Step (IS)	Claims	1-27	YES
	Claims	NONE	NONO
Industrial Applicability (IA)	Claims	1-27	YES
	Claims	NONE	NO

2. CITATIONS AND EXPLANATIONS

Claims 1-27 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest an apparatus and methods to accurately hold and optical fiber within a commercial fiber optic connector comprising coupling at least two high precision pricess, having missligned holes relative to each other, together and configured to, when missligned, accept and closely constraining an optical fiber inserted therethrough. Kato does not clearly teaches such features, but shows a reduced in area hole which is not missligned.

Claims 1-27 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in industry.

Form PCT/IPEA/409 (Box V) (July 1998)
